**The evolution of taste is traced by histories that discount anything outside of whiteness. If you choose to rewrite these unspoken rules, you become the alien. How did Kanye capitalize on alienation? He made sure it was endorsed by the Kardashian family—arguably the most popular family in the world.**

**How do we pull a Kanye in the art world? We get into the best art schools.**

**Wish me luck on my städel application and check out my PDF nonplussed+ (link in bio) 🙏**

A tattoo of a tree with red and blue branches is visible on the back of a person. The tree has a central trunk that is dark blue, with branches extending outwards in red and blue. The background is a soft, out-of-focus image of a person's back with the tattoo, overlaid with a semi-transparent text box.

By image uploads alone, *The Tree of Heaven* or the **Tree of Hell** within conservationist circles sits at the top of the list with 910 images having been uploaded to [invasive.org](https://invasive.org) as of 2021, including an image of the pesticides to control it.

It's origin—an import from China in the 1700s.

 *extra*

I stay busy undoing our decision trees— placing myself somewhere between the Tree of *Heaven* and **Hell**. This place; a cave or a Google search is trying to reroute its histories.

Charisma sits at the center of the cave, this is where the shoe becomes Yeezy and Yeezy becomes the shoe. It's a plastic, spiritual, impossible and expansive place because only through the persistence of seeking out unboxing videos will you be able to figure out if it's an authentic Yeezy foam runner. But, if it's been worn enough you might never actually know. I guess you could follow your own decision tree but remember nothing factual can come from this—only judgment.

*Ask yourself, how did  
you grow your tree*

?????

Judging the other:

Does Kanye represent her ambitions?

Is he fashion forward?

Do they follow the Kardashians?

Which ones!?

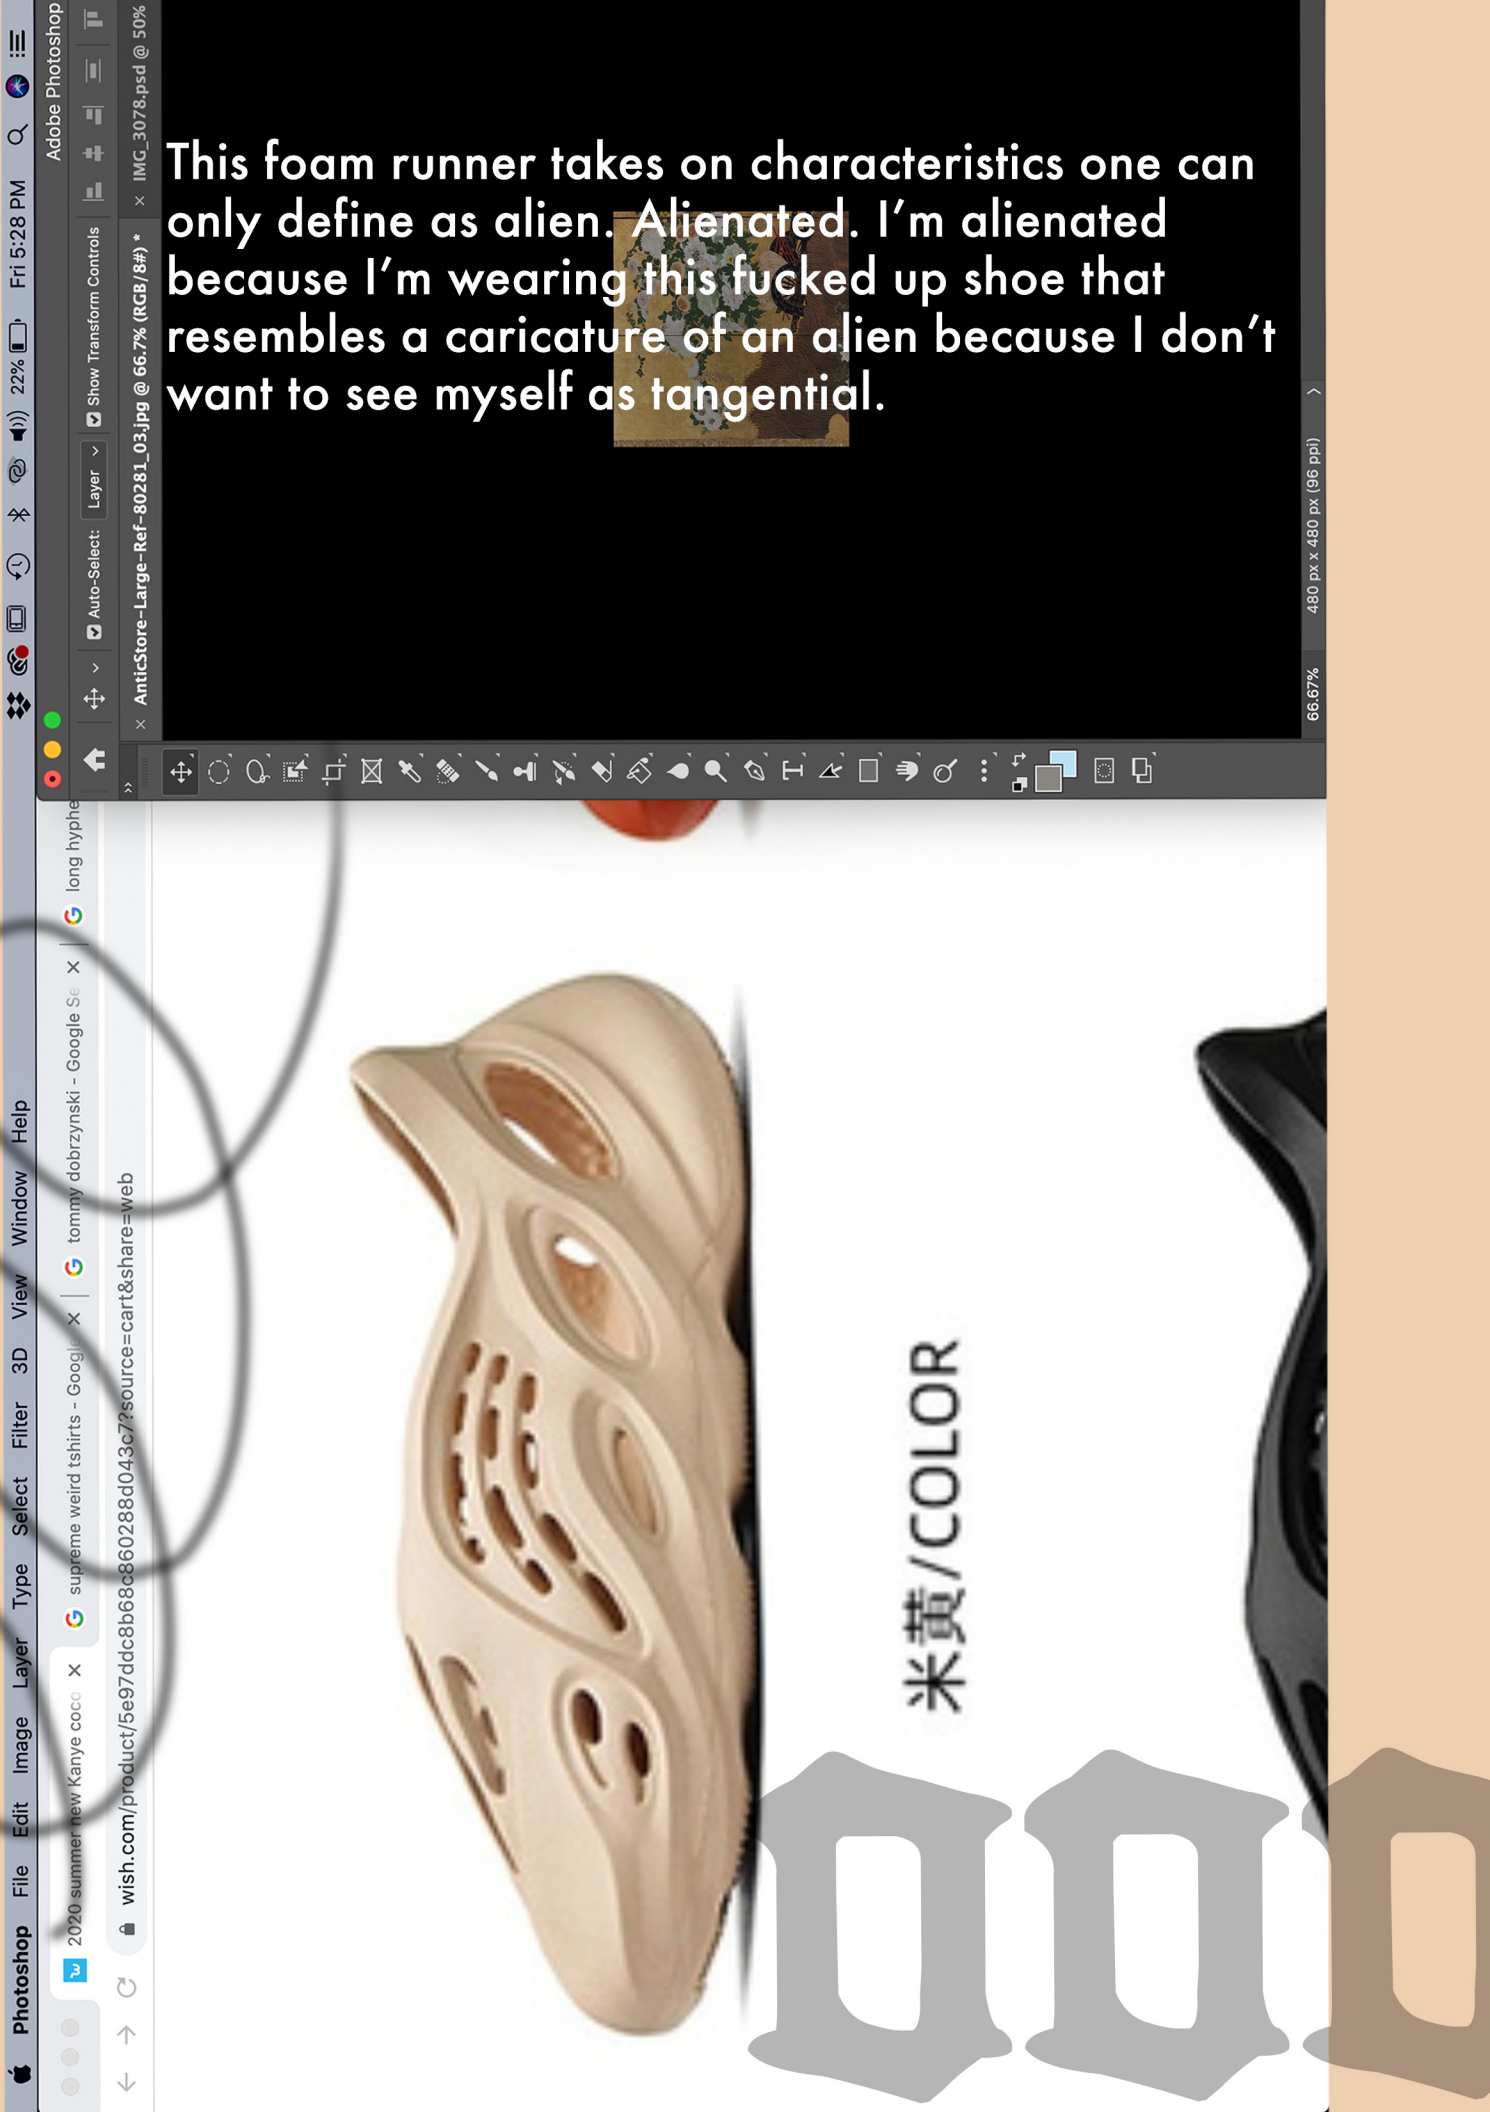

Have you tried Kylie's

Skin? *Kim's SKIMS?*

This foam runner takes on characteristics one can only define as alien. Alienated. I'm alienated because I'm wearing this fucked up shoe that resembles a caricature of an alien because I don't want to see myself as tangential.

The Devil and his nephew, I imagine, sit together in a hellish cave. They brainstorm representation, they trace through historic references of caricatures of themselves. They exhaust the translations until they find their own versions in order to take control and characterize themselves. This is art making but this is also commentary. I mean, can you exist without the symbols that make you into a third person?

# BELIEF

Now we're speaking of ourselves in the 4th, 5th, or even 15th person and that's a dangerous place when you require too much resolution.
